

PLAYLUGGAGE
MAKE YOUR MOVE!

Playluggage is not a regular suitcase, it's a statement. By combining power and beauty, it is the archetypal suitcase reborn. In addition to the core function of carrying luggage and its distinctive design, Playluggage incorporates the function of playing a variety of traditional games.

Playluggage is the distinguished suitcase for travellers who want to fulfil their dreams and live active lifestyles.

Functionality

In addition to its conventional usage as a suitcase, Playluggage boasts the added feature of traditional games. Playluggage suitcases have been designed and manufactured in a way that makes it easy and comfortable to draw and play: a multitude of card games, chess, checkers and "Trouble" etc.

Accessories

Every Playluggage suitcase includes different gaming accessories to make passing the time much easier and more fun-filled. Each suitcase has different accessories as showcased throughout this catalogue, so you can choose the suitcase and accessories that best suit your needs.

TSA lock

Every piece of Playluggage is installed with a TSA (Travel Sentry Approved) lock, especially for U.S. air travel. TSA locks allow airport officials to unlock, inspect and relock suitcases without damaging the lock.

Material

Playluggage suitcases are manufactured from high quality ABS+PC/PC plastic. The lining is made of 100% nylon taffeta-embossed fabric. Domed plate's are a cost effective way to give a high quality 3D effect finish to make your company name or brand standout. Our resin decals are very durable and suitable for long-term outdoor applications.

Frames

Playluggage suitcases come in two different frames: metal and zipper. Although all the products are depicted on the product pages with metal frames, we would like to draw your attention to the fact that it is possible to order every Playluggage product with either frame.
